SCMWORX

# OPTI-WARE

## CLOUD BASED WAREHOUSE MANAGEMENT AND OPTIMIZATION SUITE

**Self-Adapting Supply Chain Planning**

**Demand Planner | Supply Network Planner | Production Planner & Scheduler**

**Inventory Optimizer | Distribution Planner**

**Container Load Optimizer | Vehicle Route Scheduler | Transportation Planner**

**Warehouse Management System | Shop Floor Visibility | Imports Visibility**

# The Opti-Ware Edge

Cloud based System for Comprehensive Visibility across all Warehouses thereby reducing dependency on phone calls and excel based reports

For Large Warehouses, the inbuilt Put-away and Picking Optimizers increases resource productivity by 20% - 25%

Easy identification of Goods ‘To Expire’ helps in pushing the relevant stock at the earliest thereby minimizing Expiry of Goods

Intelligent System with Slotting Optimizer to Minimize TAT and reduce Movement Related Damages

Integrated Value Added Services for Warehouse Space Forecasting, Re-Order Point Planning and Inventory Classification and Optimal Zone Placement

SCMWORX

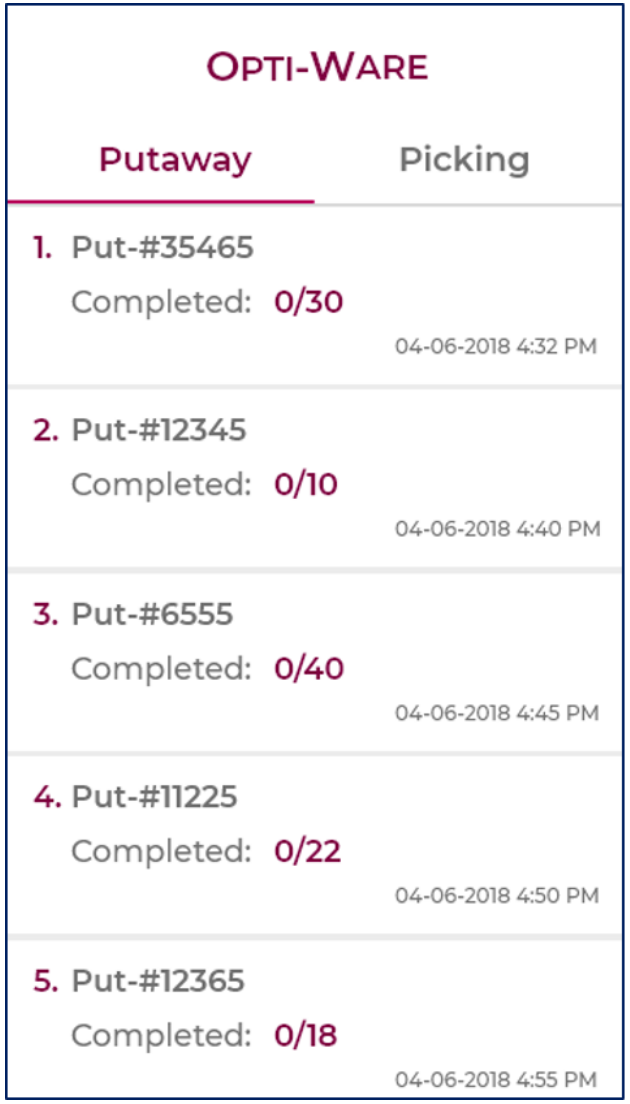
# Process Centric Design

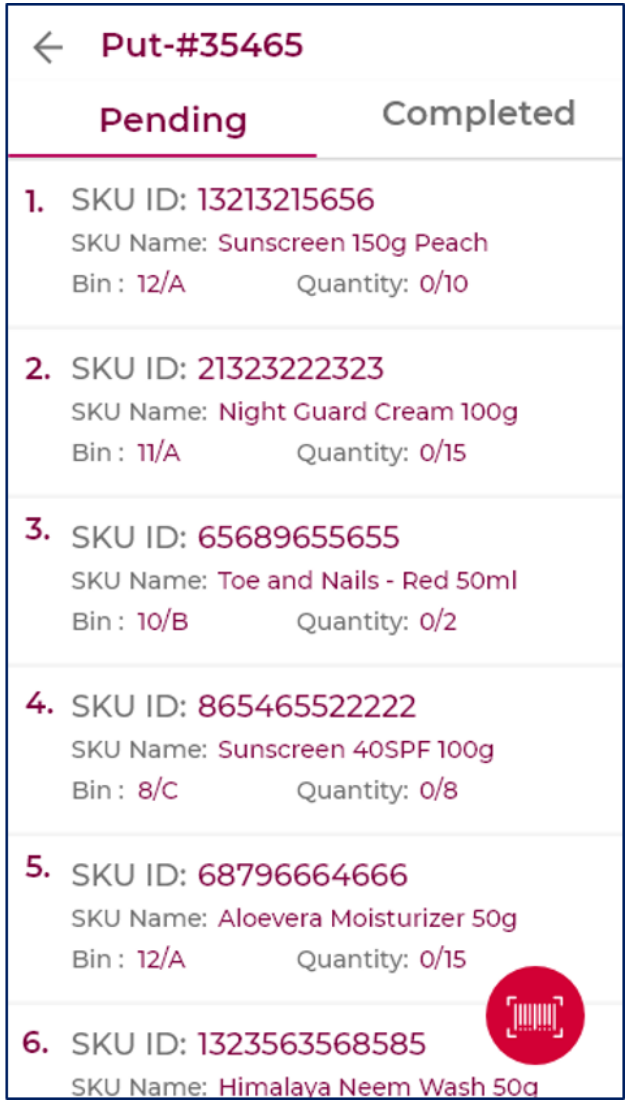
SCMWORX

# The Opti-Ware Advantage

No Need for Costly Scanning Hardware

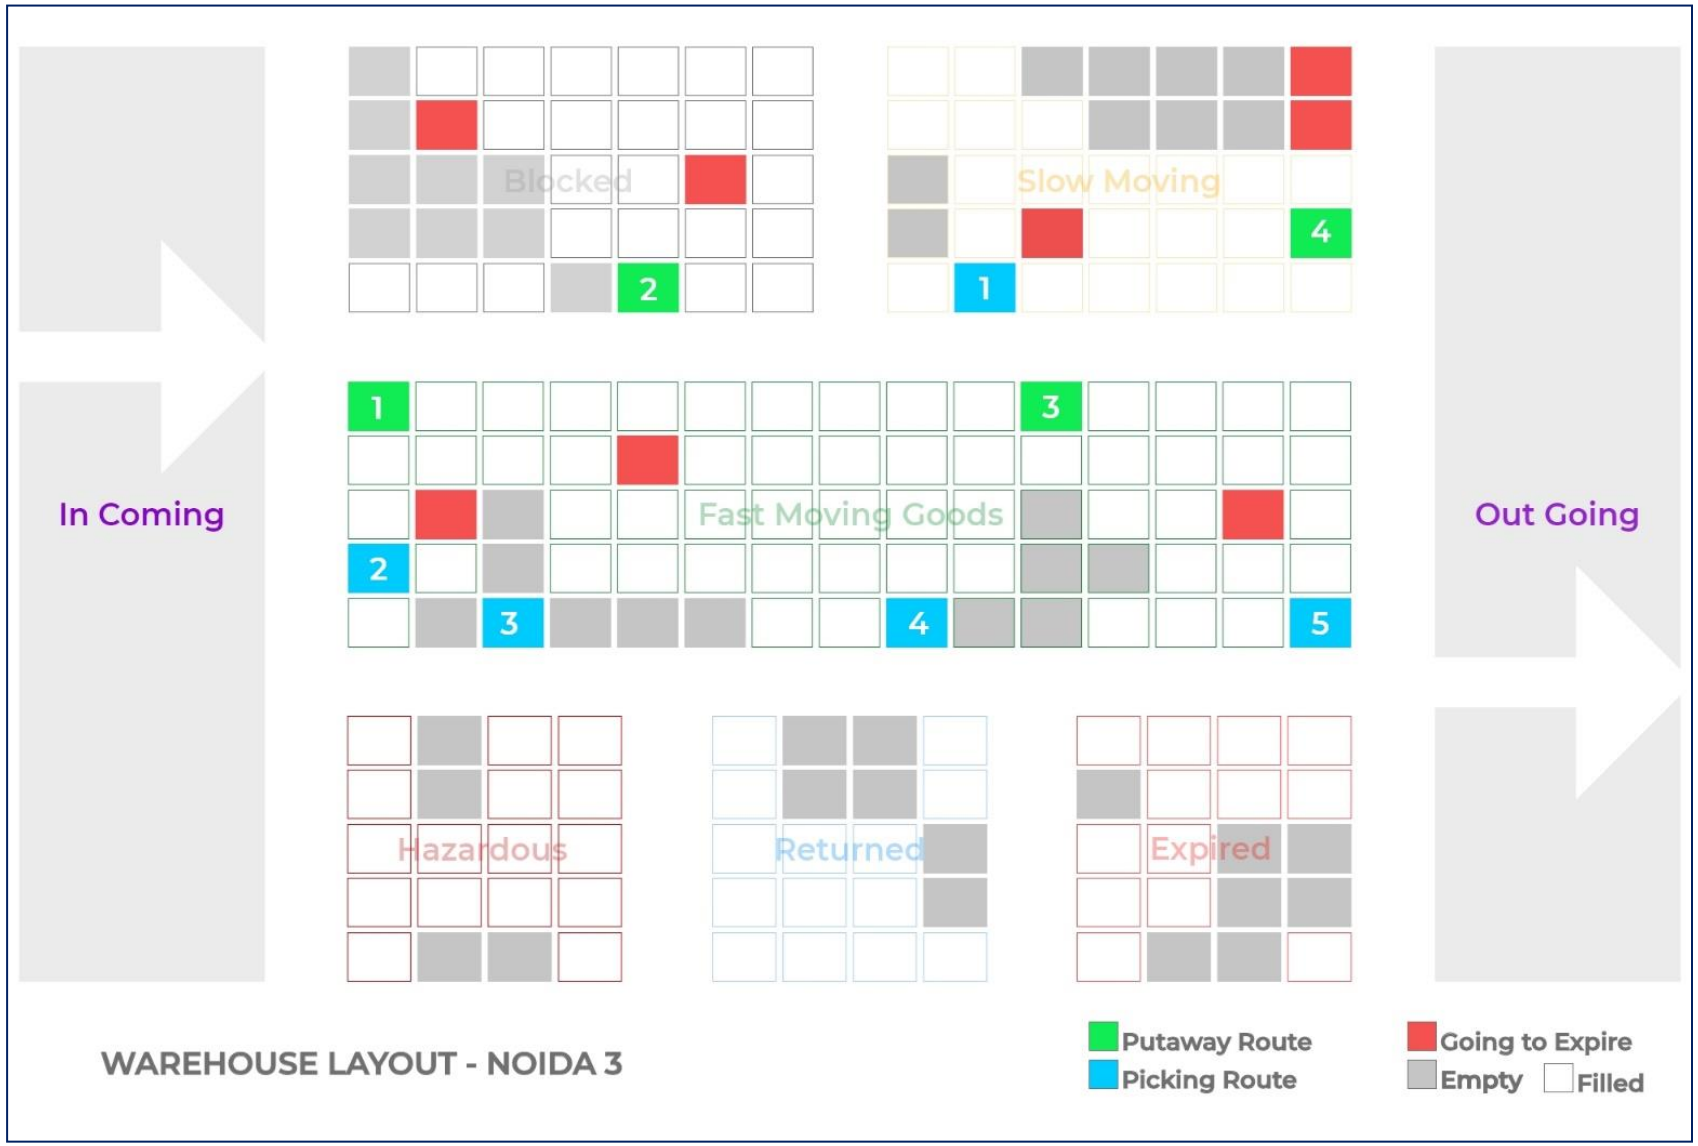
Uses Standard Smartphone for complete Automation





SCMWORX

# Strong Visualization To Manage Better

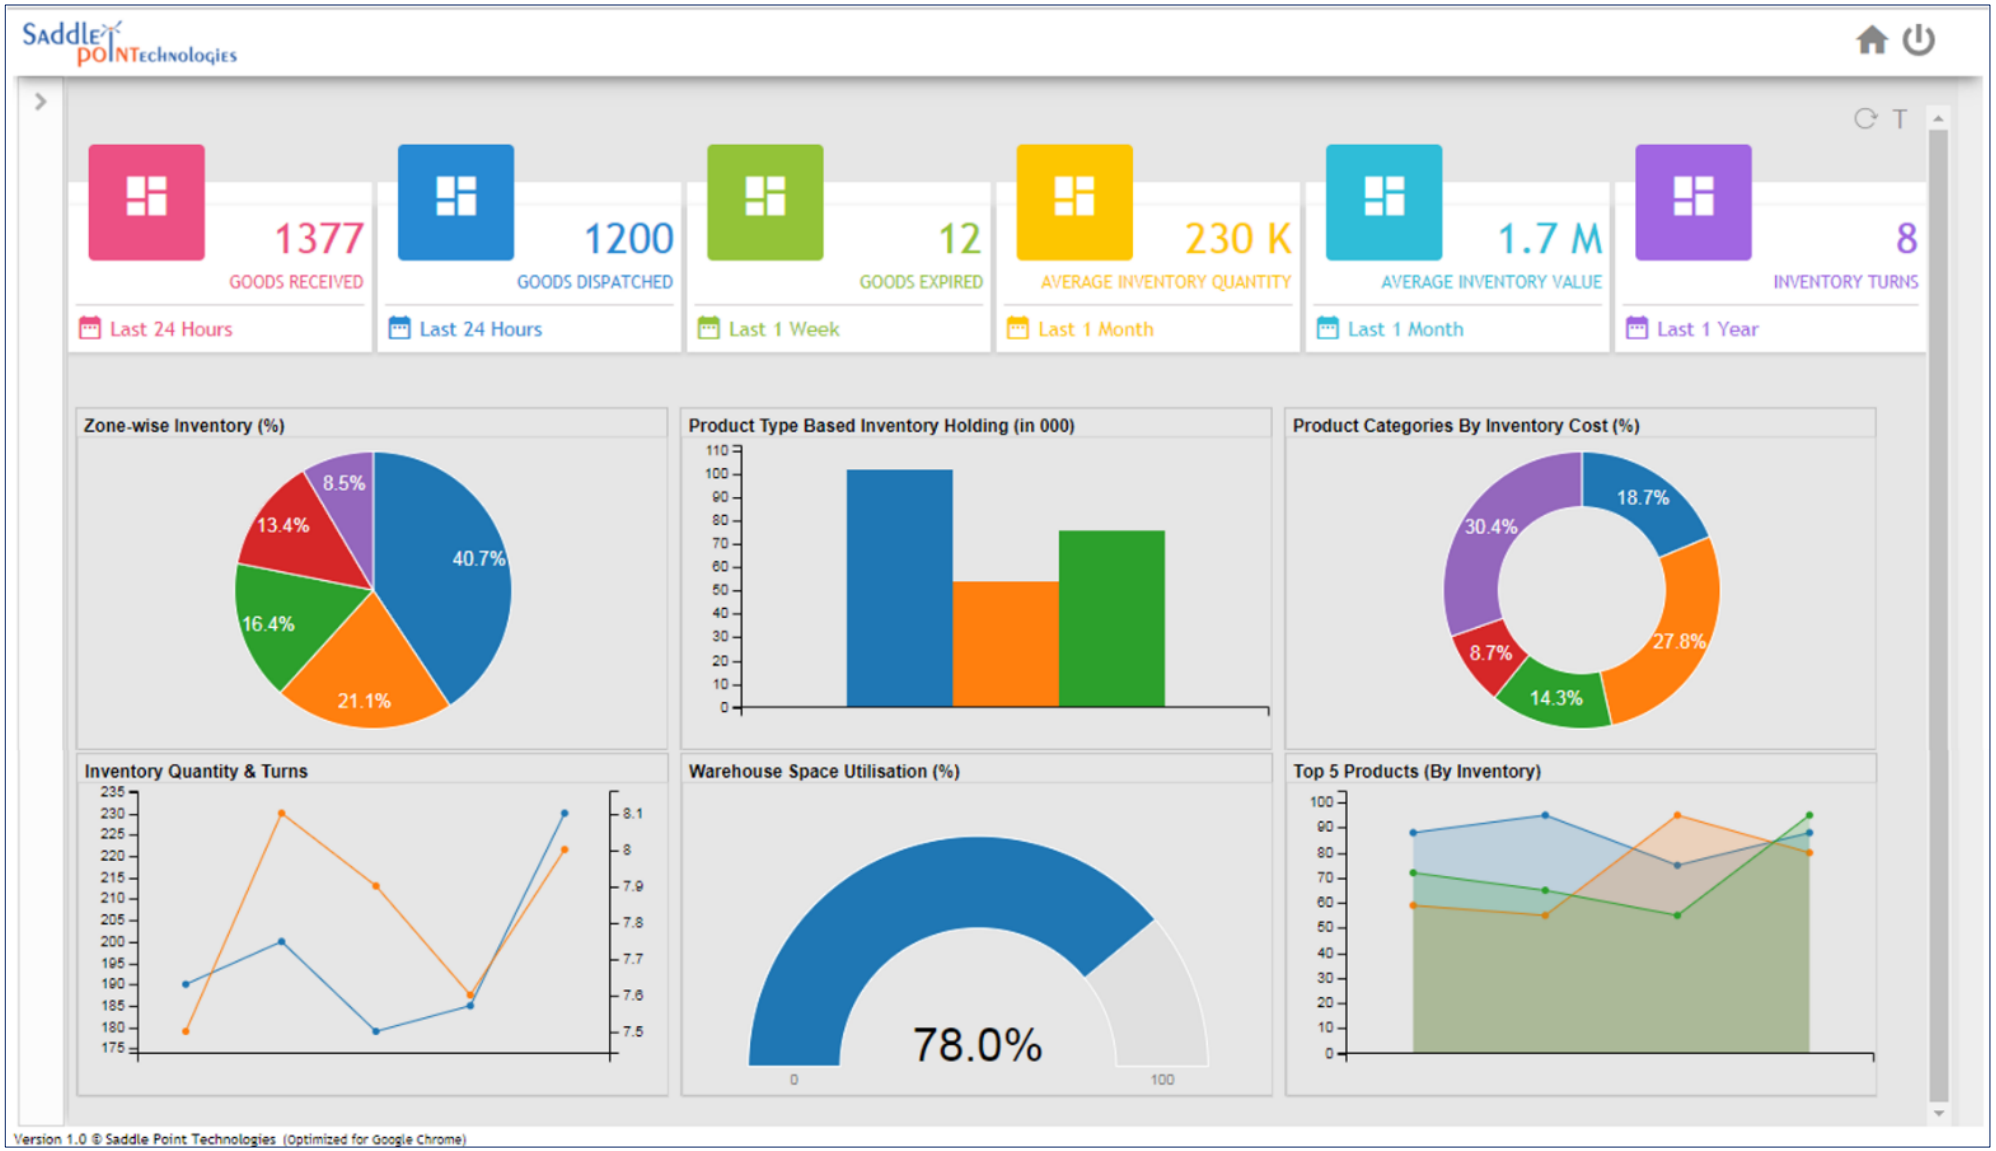


Visual Representation of Picking and Put-away Route

Visual Representation of Goods 'To Expire'

SCMWORX

# Configurable Analytical Dashboard



SCMWORX

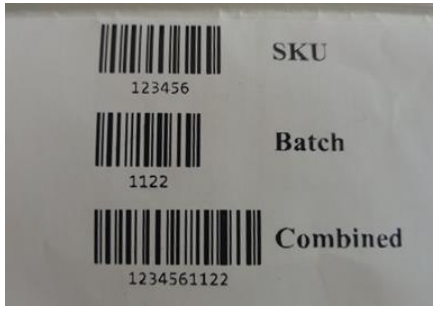
# Integrated with Standard Hardware

Wired Bar-Code Scanner

Smartphone

Wireless Bar-Code Scanner

Bar-Code Printer



Bar-Code Generator

Printer Accessories

SCMWORX

# On Demand Value Added Services

## Slotting Optimizer

Determining the Optimized Zoning and Bin Placement Position to Minimize TAT

## Warehouse Space Forecasting

Determining the Future Warehousing Space requirement based on Historical Dispatch Data

## Re-Order Point Calculation

Safety Stock and Re-Order Point Determination based on the Goods Receipts and Dispatches Data
